**ADMINISTRATIVE DETERMINATION 2009-02
Split Zoning / Comp Plan Designations**

Problem:

A few applications for Boundary Line Adjustments have been submitted that would create a situation in which one or more of the resultant parcels would have multiple zoning and / or future land use designations.

Analysis for Problem:

BLMC currently has no prohibitions for this practice.

Administrative determination for problem:

Boundary Line Adjustments can be performed that would allow split zoning and / or land use designations on one parcel.

John P. Vodopich, A.I.C.P., Director
